

BEST PRACTICE-1

Title:

"Motivating the students to clean the college premises and classroom"

Goal:

Maintaining a clean and tidy classroom (Campus).

Context:

1. Keep students and Administration healthy and install positive habits.
2. Motivating the students to clean the college premises and classroom.
3. To better understand the importance of keeping the campus clean.
4. To make a better environment for learning so the students maintain higher grades and better graduation rates in clean educational environments.
5. To reduce student absences and teacher sick days.
6. To maintain infrastructure, quality of teaching and teachers and extra-circular activities.

Practice:

1. Competition like "MERA CLASS SABSE SWACHH" is organized by the college.
2. Campus stores Rain water and fed to plants though it.
3. Herbal plants were grown in the campus.
4. Students are taught about proper hand wash.
5. College provides hand sanitizer and soap to the students.
6. Students are taught about germs.
7. The CR in each class has been appointed who looks after the cleanliness of the class.
8. Photos of scientist, writers and Philosophers are pasted on the walls of the classroom.

Problems:

1. Due to poverty, communities find it difficult.
2. Different ethnic groups have varying beliefs and customs on hygiene.

BEST PRACTICE-2

Title:

Best Out of Waste Material

Goal:

To creatively and aesthetically transform a material that might otherwise be useless. Creating something new from the old.

Context:

The goal has been set by the college to achieve the following objectives, which are as follow:

1. Save earth by reusing recycling waste.
2. To make student innovative and creative.
3. Create healthier planet for ourselves and future generation.
4. To indulge the students into an extracurricular activity with exclusive tool.
5. To make our vision and outlook broader, about the nature and society.
6. To make student aware of uses of waste material.

Practice:

Today 17th October, 2022 our college organized a program 'Best Out of Waste Material'. In which many students Anjum Kuraishi (B.A, III year), Priti (B.Sc., III year), Vandana (B.Sc., II year), Geetanjali (B.Sc., II year) and Sapana (B.Sc., III year) participated. Students made pot from waste box, dustbin from waste tin oil can umbrella from waste paper, pen stand and swing from waste paper and other various decorative items. The college principal praised the students and encouraged them. Other assistant professors were also present in this program.

Problems:

1. Most of the recycle waste material is used only for decorative purposes.
2. Students make things from their own ideas, there is no any special training or skill provides to make valuable thing from waste material.
